NURTURING LIVES

# About **US**

With our innovative living vertical or picture frames, we bring a piece of nature into your home or office space whilst combining the art of design with the beauty of plants. We believe a greener environment is not just a choice for today but an investment in a healthier, more sustainable future for all living beings on Earth.

Why choose  
us for your next  
**GREEN  
PROJECT?**

## Our **LIVING WALL**

Characterized by its size and distinctiveness, it adds style to any office or home, bringing vibrancy and calm. Our products come in standard sizes and colors, designed for easy watering by hand or with optional automatic irrigation, and they're also customizable to your liking.

**DID  
YOU  
KNOW**

Plants remove  
up to **87%**  
of volatile organic  
components(VOCS)  
& toxins every 24 hrs

- An insatiable quest for perfection and aesthetics
- Crafting designs with the sensibility of artists
- A deep fondness for plants
- Familiarity with local flora

Other

# SERVICES

## 01

---

### GARDEN DESIGN

Enjoy your outdoor space like an extension of your home, with our designs blending greenery and hardscape for a perfect balance. You'll love spending more time there!

## 03

---

### OFFICE PLANT DESIGN

Studies show plants at work increase productivity, creativity, and cut sick days. We specialize in bringing these benefits to your office with container gardens or vertical setups.

## 02

---

### POND DESIGN

We offer customized solutions for both formal water features and informal ponds, using liners or concrete to blend them naturally into your surroundings.

When

# PASSION blossoms

“

Ever since I was a child, I've had a deep passion and love for plants.

As the director of Chilli Arts, a company renowned for its creativity and innovative designs in the advertising industry, the idea struck me: why not merge these two passions to create stunning setups for clients, all centered around plants?

”
